

## Two-Handle Basin Faucet 5790-91-80CP

### INTRODUCTION:

As the ancient Chinese proverb said, square implies honest, round implies intelligent and the combination of both means wisdom. This great wisdom is the accumulation of Chinese culture for thousands of years, the principal of behaviors and embodiment of Eastern philosophy. Square and round of Arch 2 Basin Faucet present on the spout and handles design to display the perfect interpretation of ancient wisdom and modern style. Handles have been designed with straight and curved lines which created the unsymmetrical vision to catch people's eyes, moreover, designer symmetrically arrange two handles on both sides of spout brings back the balanced and stable vibration.
