Hose Bib (G1/2)
6875-L6-80CP

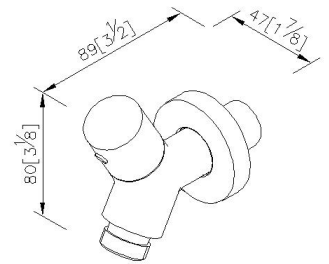

INTRODUCTION:

Taking simple letter Y as the design concept, the faucet combines special design concepts with practicality. It works fine with washing machine, and fits well in gardens and outdoor spaces. There is no need to install the pipe clamps or other tools to connect the water hose. The overall shape is neat and tidy, making the overall environment more beautiful.

DESCRIPTION:

1. Anticorrosive surface treatment of copper products, easy to clean and maintain.
2. Material of forging body meets JIS 3771 standard.
3. Handle swivel range up to 90 degrees, which can control the water volume.
4. Connecting thread spec is G 1/2.
5. The faucet can connect with different connector for various usages.
6. Cartridge is assembled with ceramic disc MARUWA (JAPAN).
7. Brass with chrome-plated meets ASTM-SC2 standard; pass 96 hours Salt Spray Test.
