

Wall-Mounted Bib Tap
6903-L4-80CP

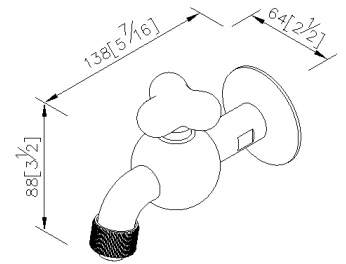

INTRODUCTION:

For a long time, the image of the long faucet has been deeply rooted in people's hearts. How to seek innovation in tradition is the first topic of Story. General long bolts always have joints and nuts. Story must hide the structure in the design and make more refined and beautiful new products to achieve market segmentation. Both the installation method and the usage method are traditional to meet the general requirements. The shape is based on the traditional long bolt, combining contemporary and fashionable elements, with an addictive ball shape as the main body, plus a cloud-shaped ceramic handle, and using modern processing equipment and special structural design to improve exquisite appearance and aesthetics.
